Education

Stanford University — Stanford, CA, USA
PhD in Management Science and Engineering – Quantitative Finance Track. *Advisor*: Prof. Markus Pelger — May 2027 (exp.)

Bocconi University — Milan, Italy
MSc in Data Science and Business Analytics – *Summa Cum Laude*. *Advisor*: Prof. Carlo A. Favero — 2020
BSc in Business Administration and Management. *Advisor*: Prof. Arnaldo Camuffo — 2018

University of British Columbia – Sauder Business School — Vancouver, Canada
MBA Exchange Semester — 2019

University of Western Australia – UWA Business School — Perth, Australia
Exchange Semester — 2017

Research Interests

Asset Pricing, Financial Economics, Machine Learning Applications in Finance

Working Papers & Work in Progress

- **How Much Sustainability is Really in Stock Prices?** (with E. Lütkebohmert, M. Pelger, and M. Rockel) **[Job Market Paper]**

  We find no robust evidence that sustainability information predicts stock returns. The results are twofold. First, machine learning applied to 22 environmental characteristics from four major data providers predicts neither returns ($t = 1.08$) nor the component of returns orthogonal to 45 conventional firm characteristics ($t = 0.84$). Notably, the same model applied to conventional characteristics delivers large and significant out-of-sample performance (SR= 0.58, $t = 2.47$). Second, through replicating prominent evidence of green outperformance, we show that its significance is an artifact of research design: the sample period, the investment universe, the portfolio granularity, the prediction target, and the absence of multiple-testing corrections. No specification survives standard corrections for data snooping.

  Conference presentation: INFORMS Annual Meeting 2024, Sustainability Data Science Conference 2025 (Stanford)
  Conference poster: AI in Fintech Forum 2024, Stanford Data Science Conference 2025, Women in Data-Driven Discovery 2025 (Stanford)
  Seminar presentation: Stanford University (2022, 2023), Robeco (2025)

- **Transfer Learning in International Equity Markets** (with M. Pelger) [Work in Progress]
  Seminar presentation: Stanford University (2026)

Teaching & Research Experience

Tutor, Athletic Academic Resource Center, Stanford University — Stanford, CA, USA
- *ECON 102A: Introduction to Statistical Methods (Postcalculus) for Social Scientists* (Undergraduate) — Fall 2026

Teaching Assistant, Dept. of Management Science & Engineering, Stanford University — Stanford, CA, USA
- *MS&E 240: Accounting for Managers and Entrepreneurs* (Graduate, Prof. John Lord) — Summer 2026
- *MS&E 254: The Ethical Analyst* (Graduate, Prof. Dale Nesbitt) — Summer 2026
- *MS&E 260: Introduction to Operations Management* (Graduate, Prof. Irene Lo) — Spring 2026
- *MS&E 245A: Investment Science* (Graduate, Prof. Markus Pelger) — Fall 2023, 2024, 2025
- *MS&E 211X: Introduction to Optimization (Accelerated)* (Graduate, Prof. Aaron Sidford) — Spring 2023, 2024
- *MS&E 211DS: Introduction to Optimization: Data Science* (Graduate, Prof. Amin Saberi) — Winter 2023
- *MS&E 145: Introduction to Investment Science* (Undergraduate, Prof. Kay Giesecke) — Winter 2023
- *MS&E 120: Introduction to Probability* (Undergraduate, Prof. Ellen Vitercik) — Fall 2022

Teaching Assistant, Stanford Center for Professional Development — Stanford, CA, USA
- *Saudi Industrial Development Fund Credit Analyst Mini-MBA Training Program* — Summer 2022, 2023, 2024, 2026

Research Collaboration, SCBx AI Team — 2024 – 2025

Awards and Honors

Dissertation Completion Fellowship, Stanford University — 2026 – 2027
Sport Expenses Grant, CAF — 2025 – 2026
Jerome Kaseberg Doolan Fellowship, Stanford University — 2023 – 2026
The Macomber Family Engineering Fellowship Fund, Stanford University — 2021 – 2022
Highest GPA among all Class of 2020 MBA Students, Sauder School of Business (UBC) — 2019

Academic Activities

Organizer – Stanford Advanced Financial Technologies Lab Doctoral Seminars — 2026 – Present
Program Assistant – AI & Big Data in Finance Research Forum (ABFR) — 2024 – Present
Mentor – Stanford MS&E University Partnership Program — 2023 – Present
Member – Stanford MS&E Master's Program Admission Committee — 2021 – Present
Mentor – Stanford Engineering Research Introductions Organization (SERIO) — 2022 – 2025

Industry Experience

Summer Associate, Bank of America — New York, NY, USA
Global Markets Quantitative Strategies & Data Group – Equities Algorithmic Trading Team — 2025

Financial Engineer Intern, Rationis SRL — Milan, Italy
Research project: *A Model for the US Term Structure with Drifting Equilibrium Rates* (advised by Prof. Carlo A. Favero) — 2020 – 2021

Personal Interests

In May 2026 I represented Italy at the Parafencing World Cup in Bradenton, Florida; my favourite artist is Vincent Van Gogh
