Education

Stanford University — Stanford, CA, USA
PhD in Management Science and Engineering, Quantitative Finance track. *Advisor*: Prof. Markus Pelger — May 2027 (exp.)

Bocconi University — Milan, Italy
MSc in Data Science and Business Analytics, *summa cum laude*. *Advisor*: Prof. Carlo A. Favero — 2020
BSc in Business Administration and Management. *Advisor*: Prof. Arnaldo Camuffo — 2018

University of British Columbia, Sauder School of Business — Vancouver, Canada
MBA exchange semester — 2019

University of Western Australia, UWA Business School — Perth, Australia
Exchange semester — 2017

Research Interests

Empirical asset pricing, climate finance, machine learning in finance, replication and multiple testing in return predictability

Working Papers & Work in Progress

- **How Much Sustainability is Really in Stock Prices?** (with E. Lütkebohmert, M. Pelger, and M. Rockel) **[Job Market Paper]**
  Role: lead author (data, all empirical analyses, and the empirical framework jointly with M. Pelger)

  We find no robust evidence that sustainability information predicts stock returns. Machine learning on 22 environmental characteristics from four providers predicts neither returns nor their component orthogonal to 45 conventional firm characteristics. The same protocol recovers the known predictability of conventional characteristics, and the sustainability models' confidence intervals exclude Sharpe ratios above half of that benchmark. Replicating the green-minus-brown evidence of Pástor, Stambaugh, and Taylor (2022), we show that its significance as a return predictor hinges on sample period, universe, sort granularity, and prediction target. Across 132 models that vary variables, sample period, and prediction target, none survives multiple-testing corrections.

  Conference presentations: INFORMS Annual Meeting 2024, Sustainability Data Science Conference 2025 (Stanford)
  Conference posters: AI in Fintech Forum 2024, Stanford Data Science Conference 2025, Women in Data-Driven Discovery 2025 (Stanford)
  Seminar presentations: Stanford University (2022, 2023), Robeco (2025)

- **Transfer Learning in International Equity Markets** (with M. Pelger) [Work in Progress]
  Seminar presentation: Stanford University (2026)

Teaching & Research Experience

Tutor, Athletic Academic Resource Center, Stanford University — Stanford, CA, USA
- *ECON 102A: Introduction to Statistical Methods (Postcalculus) for Social Scientists* (Undergraduate) — Fall 2026

Teaching Assistant, Dept. of Management Science & Engineering, Stanford University — Stanford, CA, USA
- *MS&E 140 / 240: Accounting for Managers and Entrepreneurs* (Undergraduate / Graduate, Prof. John Lord) — Summer 2026
- *MS&E 254 / 254A: The Ethical Analyst* (Graduate, Prof. Dale Nesbitt) — Summer 2026
- *MS&E 260: Introduction to Operations Management* (Graduate, Prof. Irene Lo) — Spring 2026
- *MS&E 245A: Investment Science* (Graduate, Prof. Markus Pelger) — Fall 2023, 2024, 2025
- *MS&E 111X / 211X: Introduction to Optimization (Accelerated)* (Undergraduate / Graduate, Prof. Aaron Sidford) — Spring 2023, 2024
- *MS&E 111DS / 211DS: Introduction to Optimization: Data Science* (Undergraduate / Graduate, Prof. Amin Saberi) — Winter 2024
- *MS&E 145: Introduction to Finance and Investment* (Undergraduate, Prof. Kay Giesecke) — Winter 2023
- *MS&E 120: Probabilistic Analysis* (Undergraduate, Prof. Ellen Vitercik) — Fall 2022

Student ratings of overall teaching effectiveness: 4.5 out of 5 in MS&E 245A (three years), 4.0 on average across all eleven courses.

Teaching Assistant, Stanford Center for Professional Development — Stanford, CA, USA
- *Saudi Industrial Development Fund Credit Analyst Mini-MBA Training Program* — Summer 2022, 2023, 2024, 2026

Research Collaboration, SCBx AI Team — 2024 – 2025

Awards and Honors

Dissertation Completion Fellowship, Stanford University — 2026 – 2027
Jerome Kaseberg Doolan Fellowship, Stanford University — 2023 – 2026
The Macomber Family Engineering Fellowship Fund, Stanford University — 2021 – 2022
Highest GPA among all Class of 2020 MBA Students, Sauder School of Business (UBC) — 2019

Service and Academic Activities

Meeting coordinator, Stanford Advanced Financial Technologies Lab Doctoral Seminar — 2026 – Present
Program Assistant, AI & Big Data in Finance Research Forum (ABFR) — 2024 – Present
Mentor, Stanford MS&E University Partnership Program — 2023 – Present

Member, Stanford MS&E Master's Program Admission Committee 2021 – Present
Mentor, Stanford Engineering Research Introductions Organization (SERIO) 2022 – 2025

Industry Experience

Summer Associate, Bank of America New York, NY, USA
Global Markets Quantitative Strategies & Data Group, Equities Algorithmic Trading Team 2025

Financial Engineer Intern, Rationis SRL Milan, Italy
Research project: *A Model for the US Term Structure with Drifting Equilibrium Rates* (advised by Prof. Carlo A. Favero) 2020 – 2021

Personal

Parafencing: represented Italy at the 2026 Parafencing World Cup (Bradenton, Florida), supported by the Sport Expenses Grant from CAF (2025 – 2026).
